

Your company is fantastic! Wouldn't go with anyone else and would happily/highly recommend you to anyone who asks!

Thank You,
Colleen M.

Your office staff, monitoring staff, installation guys are all great. This is the reason I continued to stay with this company when I moved.

Thank You,
Judith P.

Excellent - had a small fire. Your response was terrific & you got the fire company here. Great Relief

Dr. E.

Excellent service. You Guys did stuff to my system before I even made the call. It doesn't get much better than that.

Thank You,
Jim G.

The young man that came to fix my alarm is very knowledgeable, personable and within minutes he knew what was wrong with the alarm system. He did an excellent job.

Thank You,
Constance A

Although I haven't been a customer very long. My first impression was that of professional, extremely knowledgeable and most important besides all of the above customer friendly. Wouldn't hesitate to recommend anyone. The office staff made me feel like part of the family

Thank You.
Irene DiM.

In Today's society we need to have a well planned & necessary alarm & monitoring system. Also, fire & carbon monoxide detectors It is well worth the money for peace of mind

Thank you,
Renee McC.

Recently I had a problem with my system. It was taken care of promptly. Your provide a great service.

Thank you,
Martha S.

Your technicians always come promptly and do their work effectively & efficiently.

Thanks
Sylvan Learning

Your Service is Great – You show up when you say and your work is clean and professional.

Thank You,
John C.

I never worry about my security. I'm never left hanging when I have a problem or concern. I make a call, get an answer or service call immediately. I'll never leave you guys.

Thank You,
Valerie L.

Ocean Security Systems is professional and provides service which allows you to feel safe Having had two recent false alarms they responded quickly & professionally. I come to Ocean Security after having dealings with ADT who would not call unless the alarm rang for sixty seconds. A lot can happen in sixty seconds.

Thank you,
Rosemarie M.
